# Walk Through Metal Detector Model Selection

Model PC15000 33 Multi−Zone Walk Through Metal Detector

• Introduction

- Technology : DSP, 33 multi−zone, Bi−Detection, High Discrimination, Multiple
- Model PC15000 is the most accurate 33 multi−zone metal detector has been applied most advanced technology.
- Application: Airport, Seaport, Building, Sports Event, and etc.

• Main Feature

- None blind spot by 33 multi−zone detection
- Instant and accurate detection by using most advanced DSP.
- Bi−detection technology eliminates the sensitivity difference between panels.
- High Discrimination modes for various metal objects are programmed.
- Access Control system, CCTV and other security equipment can be integrated using I/O ports.
- Remote Controller is available
- 1~99 units can be operated by controlling program on computer.

Model PC13000 Super High Sensitive Walk Through Metal Detector

• Introduction

- Technology : Super Sensitivity, Bi−Detection, Discrimination, Multiple Modes
- Model PC13000 is the most sensitive metal detector that Super Sensitivity Technology is applied.
- Model PC13000 has high Discrimination abilities and it is very useful for detection small electronic objects and jewelry.
- Application: Prison, Court, Hospital, Factory, and etc.

• Main Feature

- Applied Bi−Detection and super Sensitivity technology applied.
- High Discrimination modes for various metal objects are programmed.
- Access Control system, CCTV and other security equipment can be integrated using I/O ports.
- Remote Controller is available
- 1~99 units can be operated by controlling program on computer.

Installation Data

- Power : 110/220 AC Volts, 50/60Hz
- Temperature : −50°C ~ +55°C
- Moisture : 0~95%, Non−Condensing
- Dimension : 870W x 550D x 2200H(mm)
- Passenger Chearance : 750W x 2000H(mm)

Packing information

- Weight : 50kg/60kg(Created)
- Antenna Panel : 2400L x 600W x 300H(mm)
- Controller : 760L x 230W x 200H(mm)

Option Features

- Carrying Bag
- Remote Controller
- PC Control Synchronization Cable
- Emergency Battery Module & Recharging Battery
